EDITORIALS .. 2, 54, 102, 154, 202, 258

page

Agricultural Development in Tropical Africa, some problems .. 22
Animals, pathogen-free
  development of technique .. 29
  specific pathogen-free pigs .. 30
  research uses 30
  commercial applications 32
  controls and education 33
Animal breeding and improvement in Nigeria 80
Aquatic weeds
  control of 35
  control with bipyridylium herbicides 230
Automation in agriculture 295
Biological chemicals
  research on 154
Bipyridylium herbicides,
  diquat and paraquat 163
  their properties and use 226
  weed control 227
  aquatic weed control 230
  pasture improvement 231

Cattle ticks
  in East Africa 126
Cereals
  some problems in intensive production 64
  soil-borne pests 66
  soil-borne diseases 66
  weed control 68
  varieties in Cambridgeshire and Yorkshire 1955–62 110
  direct-drilling 232, 286
Coffee
  production 13
  fertilizer use 19
  coffee berry disease in Kenya .. 72
  coffee leaf rust in Kenya .. 74
Consolidation 102

page

Diquat and Paraquat
  the chemistry and mode of action of the bipyridylium herbicides 163
European Economic Community
  Britain and the 44
East Africa, cattle ticks in 126
Fertilizer practice
  two decades of surveys of .. 203
Freedom from Hunger Campaign
  The F.A.O. Fertilizer Programme 3
'Gramoxone'
  ploughless farming using .. 286
Grass
  the eco-physiology of Mediterranean and north temperate varieties of tall fescue 171
  fertilization in the Netherlands .. 55
  modern taxonomy 243
Grassland
  the irrigation of 234
  cost and benefits 238
  irrigation and nitrogen 241
  productivity 2

Haymaking, quick — page
machinery and methods 259
experimental results 263

Herbicides
the value of, in pasture renovation 157
bipyridylium herbicides diquat and paraquat 163
their chemistry and mode of action 163
their properties and use 226

Hypomagnesaemia
and grass fertilisation in the Netherlands 55

Iron
a natural soil indicator 143
Irrigation of grassland 234

Livestock feeding
the significance of protein quality in 190

Malaya
maintenance of soil fertility in the permanent cultivation of *Hevea Brasiliensis* in 103

Metabolism
in the rumen, some nutritional implications of 86
of fungicides by plants and micro-organisms 119

Milk production
changes in the distribution of, in England and Wales 302

Netherlands — page
hypomagnesaemia and grass fertilization 55

Nigeria
animal breeding and improvement 80

Nitrogen metabolism
of cattle and sheep in Southern Africa 310
mechanisms for conserving nitrogen 312
protein requirements for maintenance 313

Pasture renovation
by herbicidal and other treatments 155
improvement with 'Gramoxone' 231
Pathogen-free animals 29

Perennial grasses
translocation in 136

Plant growth
the physiological significance of the potassium-calcium relationship in 93
the role of iron 94

Ploughless farming
using 'Gramoxone' 286
winter wheat 286
spring wheat 290
spring barley 291
marrow stem kale 291

Potato — page
growth, development and yield in the 211
Prophesy
the art of 258
Protein quality
significance of, in livestock feeding 190
Pyrethrum in Kenya
cultivation 178
collection and processing .. 181
Research on biological chemicals .. 154
Soil
fertility, maintenance of, in the permanent cultivation of *Hevea Brasiliensis* in Malaya 103
indicator, iron, a natural .. 143
Southern Rhodesia
rural development in, an experimental intensive dairy unit .. 218
Surveys 202
fertilizer practice, two decades of 203
Tall fescue
eco-physiology of Mediterranean and North Temperate varieties 171
Trace elements
in plants, with particular reference to pasture species 270
distribution within the plant .. 282
Understanding 54
Water harvesting
the University of Sydney project 182
strategy of water use 184
